Professional environment for courses

WP 2 Quality Monitoring

2.1. Development of a quality assurance plan

- Establishment of quality management group (QMG) responsible for quality assurance

The quality management group has got the overall responsibility for the quality monitoring and the quality control of the project. Each project partner will appoint a representative for the quality management group. The quality management group will install a quality monitoring system as described above and control its implementation and execution.

TO DO:

➔ Name one person in charge who will be part of the QMG and act for your institution!

(Due date: 31st January 2015)

WP 2 Quality Monitoring

- Development of a quality assurance plan by QMG

The quality assurance plan will be drawn up under the responsibility of the quality management group. Its purpose is to provide the basis for the systematic and proper exercise of the quality monitoring and the quality control during the project period.

TO DO:

- ➔ Establish quality assurance criteria concerning the quality of the VET work and actions delivered (target-performance accordance, identification of chances and weaknesses concerning contents as well as financial issues etc.) .
- ➔ Arrange a timetable for monitoring measures.
(Due date: March 2015)

WP 2 Quality Monitoring

2.2. Quality monitoring and evaluation

- Regular meetings of QMG

> 3 meetings of Quality Management Group (total of 4 meetings)

During these meetings, all conceptual and operational issues will be discussed and decided in relation to the establishment and implementation of quality monitoring.

Topics of the meetings:

- preparation of the quality assurance plan,
- its implementation,
- the review of quality assurance measures,
- the response to weaknesses, possible corrections and additions etc.

TO DO:

- ➔ Meetings will take place simultaneously to other meetings (as there are no travel costs provided).
- ➔ Meeting agenda will be set up by Landesakademie.

2.2. Quality monitoring and evaluation

- Implementation of quality assurance plan by partners for the specific tasks

TO DO:

➔ The person in charge will see to the implementation of the quality assurance plan of their institution.

WP 2 Quality Monitoring

- Evaluation of results led by QMG, analysis of improvement opportunities

Analysis:

Quality report containing evaluation of results led by QMG, analysis of improvement opportunities.

The quality report will check the level of the quality monitoring. This will make it possible to identify both strengths and weaknesses and optimise content and processes of the quality monitoring.

TO DO:

➔ The QMG will provide the evaluation of results and work out a corresponding analysis.

Thank you for your attention!
